

What is the current COVID-19 situation in New Zealand?

Last updated 24 March 2020

- New Zealand currently has 155 confirmed cases and probable cases of COVID-19.
- Prime Minister Jacinda Ardern has announced New Zealand COVID-19 alert levels. These new alert levels specify the public health and social measures to be taken. Nationwide, New Zealand is currently at Level 3 – Restrict. This means there is heightened risk that the disease is not contained.
- As of 11.59pm on the 24th of March New Zealand will be at alert level 4. This means it is likely the disease is not contained. Sustained and intensive transmission with widespread outbreaks.
- Level 4 measures - People instructed to stay at home, Educational facilities closed, Businesses closed except for essential services (e.g. supermarkets, pharmacies, clinics) and lifeline utilities, Rationing of supplies and requisitioning of facilities, Travel severely limited, Major reprioritisation of healthcare services
- People coming into New Zealand Including New Zealand Citizens and Residents will be required to self-isolate for 14 days. Travellers from 17 identified Pacific Island nations are exempt such as Fiji. Travellers from Australia are however required to Self-Isolate for 14 days.
- People who have visited any of the 17 identified Pacific Island Nations who develop symptoms such as fever, cough or shortness of breath are requested that they seek medical advice- by phoning Healthline's dedicated COVID-19 number **0800 358 5453** or contact your GP, including phoning ahead before your visit.
- Spot checks will be completed on those persons required to Self-Isolate. NZ quarantine powers may be used to keep possible COVID-19 cases in hospital if they refuse to self-isolate at home.
- Any place the public congregates must close. Any event which includes public congregation must be cancelled. This will apply for the next four weeks from 23 March 2020.
- On March 15th, the Australian Government announced restrictions of persons travelling into Australia from any overseas country from midnight Sunday 15th March. This will mean that all travellers into Australia will also require the same 14 days self-isolation as in New Zealand

I have a booking, what should I do?

If you are travelling from overseas and currently unable to stay with us at Getaway Te Anau, please contact us as soon as possible to confirm your cancellation for the best possible outcome and to avoid the risk of disappointment.

If you have made your booking through a 3rd party website such as booking.com, Expedia, Agoda etc. please contact them directly to make the cancellation. Unfortunately, Getaway Te Anau is unable to make any cancellations unless we have been informed of this by the 3rd party you have booked through.

Different cancellation fees apply to the various 3rd party websites so please make sure you are aware of your cancellation policy so you know what to expect regarding refunds. The sooner you are able to confirm your cancellation, the more likely you are to receive compensation.

If you have made your reservation directly with us, whether that be by phone, email or through our website and need to cancel your booking, please contact our friendly reception staff as soon as possible so we can amend your booking.

If you have a reservation and are still planning on and able to visit Te Anau please be aware of the precautions you can take to keep yourself and others safe.

What you can do to help stop the spread of COVID 19.

Clean your hands often

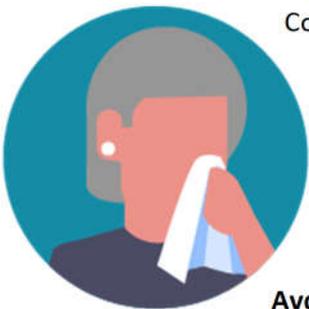

Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing.

If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Cover all surfaces of your hands and rub them together until they feel dry.

Avoid touching your eyes, nose, and mouth with unwashed hands.

Cover coughs and sneezes

Cover your mouth and nose with a tissue when you cough or sneeze or use the inside of your elbow.

Throw used tissues in the trash.

Immediately wash your hands with soap and water for at least 20 seconds. If soap and water are not readily available, clean your hands with a hand sanitizer that contains at least 60% alcohol.

Avoid close contact

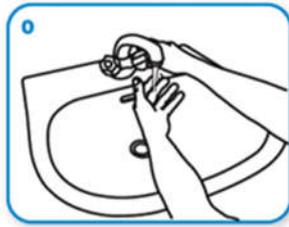

Avoid close contact with people who are sick.

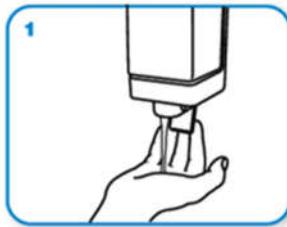

Put distance between yourself and other people. Avoid gatherings with large numbers of people. This is especially important for people who are at higher risk of getting very sick.

What is the most effective way to wash my hands?

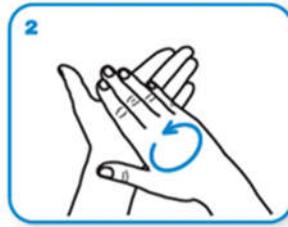

Washing your hands properly takes about as long as singing "Happy Birthday" twice, using the images below.

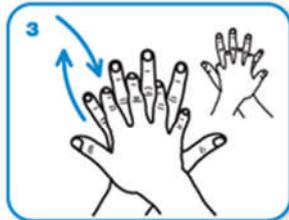

Wet hands with water

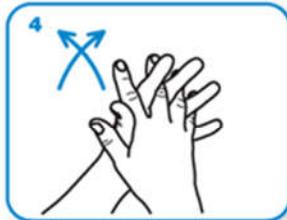

apply enough soap to cover all hand surfaces.

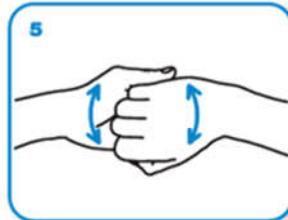

Rub hands palm to palm

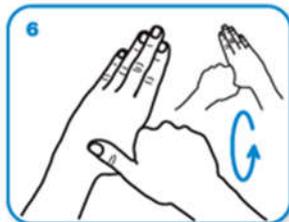

right palm over left dorsum with interlaced fingers and vice versa

palm to palm with fingers interlaced

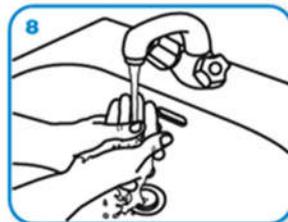

backs of fingers to opposing palms with fingers interlocked

rotational rubbing of left thumb clasped in right palm and vice versa

rotational rubbing, backwards and forwards with clasped fingers of right hand in left palm and vice versa.

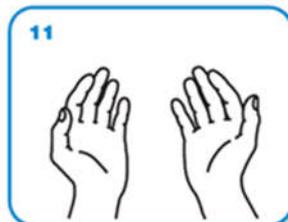

Rinse hands with water

dry thoroughly with a single use towel

use towel to turn off faucet

...and your hands are safe.

What are we doing to help stop the spread of COVID-19.

We take the safety of our guests and employees very seriously and are taking the following measures to ensure everyone's safety:

- Hand sanitiser and extra handwash stationed throughout the property
- Effective handwash technique posters at handwashing stations
- Information sheets handed to all guests at check in with information to stop the spread of germs
- Frequent disinfecting of surfaces and door handles
- Disinfecting of eftpos machines, phones and desktops in reception after each interaction
- No self-Isolation permitted on our property
- All staff with flu like symptoms taking time away from work
- Daily memos and updates on the situation uploaded to our website and sent to staff
